SHEQ is a technical field that applies multiple disciplines geared towards continuous improvement of occupational safety, environmental and quality factors that impacts on any organisation. MMC is your one stop shop for all SHEQ needs. It is very important that each and every organisation has a SHEQ strategy and management system, whether you are in the office or on a mine site, it is imperative to document and monitor possible dangers and harm that might impact your team.

SERVICES OFFERED

MMC offers the following key **SHEQ** solutions:

1. Development and Implementation of a **SHEQ** Mgt System.
